Swim Lessons

Starfish Swimming Lessons

The Bloomingdale Park District is pleased to partner with the Starfish Aquatics Institute to offer a complete swim lesson curriculum. In addition to boosting your child's self-esteem and providing a great form of fun, this program teaches participants how to be safe in and around the water. Classes are available for infants, children, and tweens and are taught by Starfish certified instructors. Below is a description of each level.

Color levels are used to divide students into ability groups. Children progress at individual rates with the opportunity to learn the core swimming skills in each level. Children can pass each level once they complete their level's swim and safety skill benchmark. Students work toward development of the five core swimming competencies and receive color stage awards for each achievement!

StarBabies

Activity #480005 | Age: 6 months – 2 years

An introduction to swimming directed toward improving the child's comfort level in water while training parents in water safety and drowning procedures. StarBabies must have a parent or caregiver in the water at all times. Parents are taught different holding techniques while their child explores the water using basic arm and leg movements. Participants sing songs and play games to become more familiar with trust and comfort, body position, submersion, air recovery, rollover, forward movement, wearing a lifejacket, and entering/exiting the pool safely. This course does not teach children to become accomplished swimmers or to survive in the water; it does provide a confidence building, fun and loving experience for babies!
