

Virtual Magic

Professional magician Gary Kantor now teaches his popular magic class online! This 45-minute online class teaches children how to perform a number of mind-boggling tricks using everyday household items. Gary starts by explaining the secrets to the tricks, and then both Gary and the children practice everything in great detail. Children have a blast as they learn exactly what to say and do when performing in front of an audience. And since this class is online, it can be taken whenever it is convenient for your schedule. And the videos can be watched again and again. Be sure to sign up for this class again since new tricks are taught each session. Please confirm that your email address on file is accurate. This email will be used to send the link and password access for the class. If you do not receive the link to the class, email Nicole at nicole@bloomingdaleparks.org.

Professional balloon artist Gary Kantor introduces a 45-minute online class that teaches children the techniques needed to take plain balloons and transform them into incredible balloon animals (like dogs, butterflies, fish, etc.). Please Note: you will need your own balloons and balloon pump. The pump and balloons cost about \$13, and when you register you will be given information on places to purchase these. Please confirm that your email address on file is accurate. This email will be used to send the link and password access for the class.
